PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 10th June 1950

Special Notice

It is hereby notified for general information that the following groups of Abridgments of Patent Specifications have been published and are now available for sale with the Manager of Publications, Civil Lines, Delhi. Copies are also available for local sale only at the counter on cash payment with the Government of India Book Depot, 8, Hastings Street, Calcutta.

- (1) Abridgments of Specifications (25,001 to 30,000) Group III—Chemical Compounds, Inorganic.

and

- (2) Abridgments of Specifications (25,001 to 30,000) Group IX.—Organic Chemistry.
1. Carbon Compounds, Organic.

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

25th May, 1950.

43188. B. D. Law and Kassels Ltd., Improvements in or relating to fan blades.
Addition to No. 43163.
43189. The General Electric Company Limited. Improvements in or relating to servo systems. (26th May 1949).
43190. W. H. Stout. Improvements in or relating to an apparatus for the distribution of water.
43191. National Malleable and Steel Castings Company. Improvements in or relating to car coupler.

26th May, 1950.

43192. B. D. Law and Kassels Ltd. Improvements in or relating to fan blades.
Addition to No. 43179.
43193. Dr. L. C. Verman. A dentifrice preparation.
43194. K. N. Misra. An improved keyboard for typewriters and like machines for Hindi and allied languages.
Addition to No. 41185.
43195. K. M. Tejuja and J. S. Vasavada. Improvements in or relating to chemical closets.

43196. The General Electric Company Limited. Improvements in or relating to tubular electric discharge devices, especially cold cathode discharge lamps. (27th May 1949).

43197. J. M. D. Aron-Samuel. Improvements in orthophosphoric esters and production thereof.

43198. Imperial Chemical Industries Limited. New dyestuffs and process for dyeing leather therewith. (1st June 1949).

43199. Imperial Chemical Industries Limited. New vat dyestuffs. (7th June 1949).

43200. Vokes Limited. Improvements in silencers, and air intake filter silencers. (3rd June 1949).

29th May 1950

43201. N. W. Imrie and E. H. Shuttleworth. Improvements in the manner of and means for making rail-joints for railway permanent-way.

43202. Imperial Chemical Industries Limited. New quinoxaline derivatives. (20th July 1949).

43203. The General Electric Company Limited. Improvements in automatic telephone systems. (2nd June 1949).

43204. The General Electric Company Limited. Improvements in or relating to electric lighting installations.

43205. The British Thomson-Houston Company Limited. Improvements in or relating to switches, contactors or circuit breakers.

43206. A. S. P. Chemical Company Limited. An improved means of soil stabilisation.

43207. E. K. Cole Limited. Improvements in or relating to radio ground control equipment for aircraft. (15th June 1949).

43208. British Artificial Resin Company Limited. Process and apparatus for the production of sheet material.

43209. Thomas Ashworth and Company Limited and S. Stanworth. Improvements relating to the manufacture of warp and other flanged beams.

43210. N. V. betondak. Joint for concrete pressure pipes.

43211. W. G. Allen and Sons (Tipton) Limited. Improvements in and relating to couplings for rail road vehicles.

43212. S. Clipson. A method of and apparatus for applying slurries to structural surfaces.
43213. S. Clipson. Improvements relating to compositions for surfacing walls, ceilings and the like.
43214. S. Clipson. Improvements relating to smoothing or finishing trowels.
43215. Stamm & Co. Improvements in or relating to measuring tapes and mounts therefor.
43216. G. Pinazza. Percussion apparatus actuated by the centrifugal force developed by eccentric rotary masses.
43217. Ciba Limited. Process for the manufacture of new esters.
43218. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to V-shaped filaments.
43219. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to lamp caps for tubular, electric lamps.
43220. B. D. Law and Kassels Ltd. Improvements in or relating to fan regulators.
43221. B. D. Law and Kassels Ltd. Improvements in or relating to fan blades. (Addition to No. 43179).
43222. Smith's Jacking Systems Limited. Improvements in or relating to lifting devices. (14th June 1949).
43223. The Director Technical Development M. G. O. Branch, Army Headquarters, New Delhi. Improvements in or relating to tropicalized prismatic binoculars 6 × 30 (No. 2 Army Pattern).
30th May, 1950.
43224. R. S. V. Kohorn. Improved absorbent yarn and method and apparatus for producing the same.
43225. The General Electric Company Limited. Improvements in duplex telephone transmission systems. (8th June 1949).
43226. Elektrokemisk A/S. Improvements relating to self-baking electrodes.
43227. U. S. Vitamin Corporation. Water solubilized vitamin compositions.
43228. Ciba Limited. Process for the manufacture of condensation products from aldehydes and ketones.
31st May 1950
43229. P. N. Poonik, V. Werner and K. Kubelka. Dobby for a shuttleless automatic loom.
43230. American Cyanamid Company. Improvements in or relating to methylene bis—(4, 6-dialkylphenols) and the preparation thereof. (9th January 1950).
43231. Chas. Pfizer & Co., Inc. Improvements in or relating to streptomycin. (5th April 1950).
43232. Guest, Keen & Nettlefolds (Midlands) Limited. Improvements relating to floors, paving or roads.
43233. Associated Locomotive Equipment Ltd. Improvements in transmission gearing for use on locomotive engines.
43234. Standard Telephones and Cables Limited. Selection system for electrical circuits or equipments.
43235. Standard Telephones and Cables Limited. Improvements in or relating to electronic scanning systems (31st May 1949).

Alteration of Date

42255. The claim to the priority dated 25th November 1948 has been abandoned and the application dated as of 17th November 1949, the date of filing in India.

Applications Accepted.

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications, referred to below, may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in due course. The price of each specification is Re. 1 (postage extra) if sent out of India. Requisition for the supply of printed specification should be accompanied by the numbers of the specifications as shown in the following list.

If required typed copies of the specifications, together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under section 78-A of the Act.

40620. Automatic Totalisators Limited. Multi-stake ticket issuing and recording arrangements. (17th December 1947). Accepted on 26th May 1950.

Consists first, second selector switches and a number of third selector switch, one grand total unit and one competitor energised by circuit through first and second and one of the third selector switches.

40724. R. G. Ambike. Improved folding mosquito curtain stand. Accepted on 26th May, 1950.

Comprises two frames each having a base, hinged arms foldable brackets, the hinged arms being connected by strips.

40800. Standard Telephones and Cables Limited. Communication system. Accepted on 25th May 1950.

Set of transmission media at central exchange, common to all lines affords parallel paths for elements of distinct line designating code combinations; voltages corresponding to called line code produced from calling line signals; each line accepts its own code to link it with the set of transmission media.

41211. T. Kenderi. Heater for liquid or gaseous fuels. (4th April 1949). Accepted on 25th May 1950.

Nozzle and nozzle casing located in the gasifying-tube.

41343. Ciba Limited. Process for the manufacture of new quaternary ammonium compounds. Accepted on 26th May 1950.

Treating 1 : 4-bis-amino-alkyl-naphthalene with quaternating agent.

41685. Saurefabrik Schweizerhall. Improvements in or relating to the treatment of gaseous products of the decomposition of volatile metallic chlorides. (29th March 1949). Accepted on 25th May 1950.

Chlorine content of the gaseous products is recovered by treatment with a liquid absorbent selective to chlorine, followed by heating the absorbent.

41688. W. R. Green. An improved wind mill. Accepted on 25th May 1950.

Comprising a framework supporting a vertical driving shaft rotated by two or more pairs of wings located one above the other, each pair comprising two blades hingedly mounted at their upper edge to a frame fixed centrally to upper part of the driving shaft.

41759. A. Dinsley. Method of producing culture media for the propagation of vegetative organisms. (Addition to No. 38531). Accepted on 25th May 1950.

Culture media consists of nutrient carbohydrate and chemically unaltered and physically unadulterated chlorophyll.

41890. Societe Anonyme Des Manufactures Des Glaces Et. Produits Chimiques De Saint-Gobain, Chauny & Cirey. Improvements in variable speed transmission devices of continuously variable ratio. Accepted on 25th May 1950.

Differential with two sun wheel and a planet carrier elements; two elements connected directly to driving and driven shafts; means for driving third element from driving shaft includes displaceable elements; varying position of the latter progressive change in speed ratio is effected.

42024. British Insulated Callender's Cables Limited. Improvements relating to sealing glands. (4th November 1948). Accepted on 25th May 1950.

Consists of a rubber brush which is pressed into the surface of the cable by external pressure.

42219. American Cyanamid Company. Improvements in or relating to the production of synthetic fibres from polymers and copolymers of acrylonitrile. (Addition to No. 40930). Accepted on 26th May 1950.

Stretching the fibre in hot moisture and applying an anti-static agent to the stretched fibres followed by continuous drying of the fibre.

42255. Koninklijke Industriële Maatschappij Voorheen Noury & Van Der Lande N. V. Improved process for preparing hexachlorocyclohexane. Accepted on 25th May 1950.

By chlorinating benzene in the presence of a cooled aqueous solution having a freezing point not higher than -12°C .

42298. American Cyanamid Company. Improvements in or relating to the production of synthetic fibres from polymers and copolymers or acrylonitrile. Addition to No. 40930. Accepted on 26th May 1950.

Subjecting the stretched fibres to a cutting operation so as to obtain discontinuous lengths of said fibres followed by drying.

42359. S. W. Evensen. Improvements in manufacturing constructional plates by pressing. Accepted on 26th May 1950.

By pressing fibrous materials with bonding agent in a mould in which the pressure is exerted in a direction parallel to the large side surfaces of the finished plate.

42553. Standard Telephones and Cables Limited. Switching mechanism for electric circuits. Accepted on 25th May 1950.

A switch mechanism has a freely movable member normally under control of a translator member.

42614. Vokes Limited. Filtering installations. Accepted on 25th May 1950.

Comprising means to isolate from the mainflow one or more units at a time for cleaning and thereupon diverting in the reverse direction.

42626. G. Rossel. Improvements in or relating to rubber bristle bands for rollers or the like. Accepted on 29th May 1950.

Wherein the bristle holder, in the form of plates or bands, consists of elastic material.

42790. Coventry Motor Fittings Company Limited and A. L. Garratt. Improvements in and in the making of soldered joints. Accepted on 30th May 1950.

One part having a flange while other part has a groove adapted to receive the said flange and a solder wire.

42816. A. E. Roy and T. V. Tyler. Improvements in or relating to a machine for and method of making saw blades. Accepted on 30th May 1950.

Comprising means to advance a continuous metal element, cutter means to cut and roll a spiral groove and adjacent spiral saw tooth.

42942. Universal Oil Products Company. Preparation of a hydrocarbon drying oil. Accepted on 26th May 1950.

Contacting an iso-mono-olefin with a conjugated polyolefin, co-polymerising during said contact in the presence of a catalyst comprising anhydrous hydrogen flouride.

Opposition Proceedings

The opposition entered by Imperial Chemical Industries Limited to the grant of a patent on application No. 39550 made by May & Baker Limited and as notified in the Gazette of India, Part II, Section 1, dated the 30th July 1949 has been allowed and the grant of the patent has been refused.

Printed Specifications Published.

A limited number of printed copies of the under-noted specifications are available for sale from the Manager of Publications, Civil Lines, Delhi or on Cash payment at the counter of the Government of India, Central Book Depot, 8, Hasting Street, Calcutta, at one rupee each:—
